EDUCATION

Bachelor of Computer Science - General Program Co-op

2019- 2023 (Expected)

Concordia University, Montreal, QC

- Member of the Institute for Co-operative Education
- Relevant Courses: Object-Oriented Programming (with Java 8), Web Programming (with PHP7 and JavaScript, CSS3, HTML5), Data Structures and Algorithms (with Java 8), Game Programming (with C++).

PROJECTS

GitHub: <https://github.com/quannguyen10800/COMP345>

- Team project for COMP345 to create a variation of the Risk computer game in C++.
- Project's functionality is based on the game called "[Warzone](#)". A Warzone game consists of a connected graph map representing a world map. Two or more players can play by placing armies on countries they own.

https://github.com/quannguyen10800/css_project

- Personal mini website built by HTML5 and CSS3.
- Website is about the nutrition shop that introduces healthy products and displays feedbacks from the clients.

WORK EXPERIENCE

IT Intern & Part-time

May 2020 – April 2021

[Vanntechns Web Studio](#), Montreal, Quebec

- Accomplished the deep understanding on Wordpress and Woocommerce, with plugins integration by completing 4 Wordpress website projects during the time I worked there.
- Worked as a business analyst to communicate what clients need and require, with the outsource team located in India, Phillippine, and Dominican Republic.
- Kept track the project timeline and updated to the company's internal Trello board and the client's Trello board.
- Kept track of clients communications and emails by the company Bitrix24 CRM software.
- Projects I completed: <https://darchisystems.com/> , https://huongxua-anjou.com/fr_ca/
